

Beloved,

Some brethren have reported problems with the display of our website www.mcreveil.org, especially on mobile phones. Here is a short tutorial that will allow you to have the correct display of the Site on your device.

1) Click on the 3 small dots.

2) Scroll through the options and click on the "Desktop site" or "Request Desktop Site" option

You can now see all menus displayed correctly.

Enjoy your reading and the grace of the Lord Jesus be with you!
